## CERTIFICATION OF COMPLIANCE

### **GALVANIZED STEEL CONDUIT**

Western Tube & Conduit manufactures its Galvanized Steel Conduit and Tubing to meet the requirements of:

Rigid (RMC, ERMC, GRC) - UL-6, CSA C22.2 No. 45.1, and ANSI C80.1

IMC - UL-1242, ANSI C80.6

EMT - UL-797, CSA C22.2 No. 83.1, and ANSI 80.3

All meet the requirements of the US National Electrical Code (NEC – NFPA-70).

WT&C's steel conduit and tubing is registered and listed by Underwriter's Laboratory (UL) and by the Canadian Standards Association (CSA).

All of WT&C's conduit products are manufactured and assembled in Long Beach, CA, USA or in Mt. Braddock, PA, USA. The steel used for all our conduit products is domestic, or it is procured from a supplier that is located in a country that is a member of the World Trade Organization. The conduit products meet the requirements of the "Buy America" Act.
